Journal of Aquatic Ecosystem Health

Contents of Volume 3, 1994

Vol. 3 No. 1

Editorial 1

Preface 3

J. CAIRNS, JR.: Ecosystem health through ecological restoration: barriers and opportunities 5

S.M. ADAMS & M.G. RYON: A comparison of health assessment approaches for evaluating the effects of contaminant-related stress on fish populations 15

J.E. LYNGBY & S.M. MORTENSEN: Assessment of nutrient availability and limitation using macroalgae 27

S.E. PALMER, B.R. NIEDERLEHNER & J. CAIRNS, JR.: Assessment of pollution impact on aquatic microbial communities based on DNA hybridization and protozoan identification: preliminary method development and comparison 35

M. POWER, D.G. DIXON & G. POWER: Modelling population exposure-response functions for use in environmental risk assessment 45

E.S. GELLER: Psychological perspectives of ecosystem health 59

Aquatic Ecosystem Health and Management Society
Objectives 63
Membership Application Form 64
Sponsored Activities 65

Forthcoming articles 66

The 'KLUWER' LaTeX Style File 67

Vol. 3 No. 2

M. POWER, D.G. DIXON & G. POWER: Perspectives on environmental risk assessment 69

S.J. ZYLSTRA: A new program for biomonitoring status and trends in the environment 81

D. GRUBER, C.H. FRAGO & W.J. RASNAKE: Automated biomonitors – first line of defense 87

B.R. NIEDERLEHNER & J. CAIRNS, JR.: Consistency and sensitivity of community level endpoints in microcosm tests 93

J. PELLERIN-MASSICOTTE: Oxidative processes as indicators of chemical stress in marine bivalves 101

G.M. KRUZYNSKI, I.K. BIRTWELL & G.L. CHEW: Behavioural approaches to demonstrate the ecological significance of exposure of juvenile Pacific salmon (genus *Oncorhynchus*) to the antisapstain fungicide TCMTB 113

J.P. SHERRY, B.F. SCOTT, E. NAGY & B.J. DUTKA: Investigation of the sublethal effects of some petroleum refinery effluents 129

R.B. ATKINSON & J. CAIRNS, JR.: Possible use of wetlands in ecological restoration of surface mined lands 139

L.W. HALL, JR., S.A. FISCHER, W.D. KILLEN, JR., M.C. SCOTT, M.C. ZIEGENFUSS & R.D. ANDERSON: Status assessment in acid-sensitive and non-acid-sensitive Maryland coastal plain streams using an integrated biological, chemical, physical, and land-use approach 145

Forthcoming articles 169

Forthcoming conferences 170

Vol. 3 No. 3

A. KURATA: Organic matter accumulation in the bottom sediments and its regulatory aspects in the southern basin of Lake Biwa 171

N.H.B.M. KAAG, E.M. FOEKEMA & C.T. BOWMER: A new approach for testing contaminated marine sediments: fertilization success of lugworms following parental exposure 177

P. VAN DEN HURK: Effects of natural sediment properties on test results in bioassays with oyster larvae (*Crassostrea gigas*) on sediment elutriates 185

G. DAVE & E. NILSSON: Sediment toxicity in the Kattegat and Skagerrak 193

G. DAVE & B. DENNEGÅRD: Sediment toxicity and heavy metals in the Kattegat and Skaggerak 207

P. ROSS & M. MUNAWAR: Development of regulations for managing contaminated sediments in Europe and North America 221

W.N. GIBBONS & K.R. MUNKITTRICK: A sentinel monitoring framework for identifying fish population responses to industrial discharges 227

Forthcoming articles 239

Forthcoming conference 240

Vol. 3 No. 4

Dedication: Harold F. Nicholson (1923–1994) 241

Virginia Conference (1993): Photo of participants 242

REN JIUCHANG, CAI XIAOMING, ZONG ZHIXIANG, WANG MOSHAN, LI SONG-GANG, XU CHONGREN & YANG JIANMEI: The strategic role of ecological research in the design of an environmentally comprehensive plan for a new economic-development area – Meizhou Bay, China 243–246

F. MARTÍNEZ-JERÓNIMO & R. GARCÍA-GONZÁLEZ: Effect of food concentration on the chronic toxicity of sodium dodecyl sulphate to *Daphnia magna* 247–253

L. MARTINEZ-TABCHE, N.E. MORALES, M.B. RAMIREZ, C.I. GALAR & G.H. CARDONA: Effect of lead on the reaction of O-demethylase in p-nitro anisole in the cladoceran *Moina macrocopa* 255–258

D. GRUBER, C. FRAGO & W.J. RASNAKE: Implementation of a multiple biomonitoring approach to evaluate the potential for impact from an industrial discharge 259–271

D.F. MALLEY & P.S.S. CHANG: Assessing the health of a zooplankton community in a small Precambrian Shield lake during recovery from experimental acidification 273–286

M.D. MATLOCK, D.E. STORM, J.G. SABBAGH, C.T. HAAN, M.D. SMOLEN & S.L. BURKS: An ecological risk assessment paradigm using the Spatially Integrated Model for Phosphorus Loading and Erosion (SIMPLE) 287–294

M. MUNAWAR, I.F. MUNAWAR, T. WEISSE, G.G. LEPPARD & M. LEGNER: The significance and future potential of using microbes for assessing ecosystem health: the Great Lakes example 295–310

J. CAIRNS, JR.: Concluding remarks 311–312
